April 17, 2009

Dear Mark,

I am moved to express my sincere appreciation to Upland Homes for the efficient and timely construction of my home.

The entire project from conception to delivery was laced with quality service and I will surely have no hesitation or reservations in recommending your company to anyone.

I greatly admired the smooth linking and interaction between the myriad of subcontractors who were employed on the project and delivered all that was promised in an extremely professional manner.

High praises must be extended to the office staff – the nucleus of the construction - for their keen supervision ensuring that all details were meet to my satisfaction. Any changes to the original plan were readily addressed and that speaks volumes to your company, whose motto ought to be 'Setting a Higher Standard with 100% Customer Satisfaction'. It was indeed my pleasure working with such a friendly and efficient team of young ladies. I wish them continued success and enjoyment in their jobs.

In spite of the odd finishing touches that are needed to fully complete the project, I am truly pleased with my new home and have absolutely no regrets choosing Upland Homes. I have every confidence that your company will continue to grow from strength to strength.

Once again I convey my sincere gratitude for a job well done.
